Greetings Families, Students, and Guardians:

We have three weeks left in this second quarter! Students who have not kept up with their studies should be reaching out to their coaches and teachers now! Hopefully, we have already contacted these students and have come up with a plan!

MOY (middle of the year) STAR testing is upon us! Teachers and/or coaches will be reaching out to schedule students in the next three weeks and into January. These tests are required, as they guide counselors to the best suited classes for each student and give data on school performance.

Students: please check-in every day with your coach. Also, we often post important information through your TEAMS channels. Check them regularly and give a thumbs-up so we know you received the information.

I am inspired every day by our students! Many of our students are juggling multiple responsibilities with work and families. Staying motivated to do school-work and overcome these hurdles is not easy! However, the large amount of students that find the drive and have the desire to graduate is amazing! Please know that we are here for you!! Never hesitate to reach out to your teachers, coaches, counselors, social emotional generalists, or Principals!!

Parents and Guardians: I know you work hard every day as well. I am the mother of two busy, bored, moody teenagers myself. And yes, they can be busy and bored at the same time!! Thank you for all you do, I know it is not easy!

In Partnership,
Kim Brown,
Assistant Principal
